

**AQUAFLOIDA, INC. STORMWATER  
TREATMENT AREA (STA)  
CONCEPTUAL DESIGN**

Aerial View – The Property Proposed for the 6,500 Acre STA

<b>Site:</b>	Lykes Brothers Property, Highlands Co., FL.
<b>Project Description:</b>	As one of the thirteen state-funded projects under the Phosphorus Source Control Grant Program, this project provided for the conceptual design of a 6,500 acre regional stormwater storage and treatment reservoir, commonly referred to as an STA. The conceptual design encompassed preliminary environmental studies, topographic surveys, photographic mapping, geological investigations, and a 15% engineering design, which is to provide a framework for future planning and design efforts.
<b>Performance:</b>	AquaFlorida, Inc. completed all tasks and provided the Final Conceptual Design Document (with all supporting documentation) within the project's 1 year time frame.
<b>Funding:</b>	\$516,000 (State Appropriation).
<b>Landowner Cost-Share:</b>	Not applicable at this stage.
